## The Holtkamp Organ - 1982

The construction of the organ at New Hope Lutheran began in October 1981. It was completely built in Cleveland Ohio, at the Holtkamp Organ Factory. The firm has been producing instruments of various design and sizes continuously since 1855. And was built to the specifications of the third generation at the time owner, Walter Holtkamp. Eight months later the organ was completed, tested and packaged for shipping to Great Falls. It arrived on June 9, 1982. In two weeks, it was completely assembled and ready for voicing. The formal dedication of the instrument took place October 3, 1982, with John C. Ellis, University Organist for the University of Montana in Missoula.
